

# 2023 Spring Schedule

Please try to avoid conflicts when registering for classes.

- For any given date, consecutive classes preceded by matching asterisk sets (either \* or \*\*) overlap in time; no more than one of them should be chosen.
- Class venues are given in the course descriptions. Travel time from one venue to another may also create a conflict between classes even though their times don't overlap. If you're considering classes which meet on the same date in two different venues, please take travel time into account when considering whether it's possible to take both of them.

	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
